Mr. W. W. Mills, of 1382 Topeka avenue, announces the marriage of his daughter, Isabel, and Mr. David Newmeyer, which was solemnized this morning at 10 o'clock, at the Mills home.

## IN NORTH TOPEKA GOLIATH, TALL GIRAFFE, A BIG CIRCUS FEATURE

Members of Battery A Send Home Good Reports.

Government Exhibition Train Sidetracked at U. P. Station.

A half dozen North Topeka men are with Battery A on the border and among them is Robert Spetter, son of J. R. Spetter. Mr. Spetter receives frequent letters from his son, who enjoys life on the border as a vacation. The drift of Battery A he reports are confined to evolutions with the horses and guns, practice at loading, firing and range finding. Young Spetter's duties with the gun crew consist in helping to load a shell into the gun, then in adjusting it to an elevation corresponding to the range given by the lookout. He says the men enjoy the work.

The men like their officers and are well treated by them. Their food is good and their present quarters are much better than those to which they were first assigned. Originally the camp was on low ground but it has been changed to a hillside which is more satisfactory. They have new tents, cots with mattresses and screens that fit over the cots and protect them from insects. Altogether, according to Spetter, the life is agreeable. He thinks that the total length of the militia's stay on the border will not exceed six months. The North Topeka men now on the border include Robert Spetter, Homer Kennedy, Lonny Shore, Chauncey McGee, John Bussey and Jay Carter.

Exhibition Train Arrives. The United States government-Union Pacific exhibition train pulled in this morning, and much interest is being shown in the exhibits which it will make. The train is open for visitors this afternoon from 1 to 3 o'clock.

Notes and Personal. The politics and partisanship of the North side is aroused today and much speculation is abroad on results of the election. Indications point to a heavy vote.

Pride of Barnum & Bailey Menagerie Measures 18 Feet.

Goliath is coming to Topeka. He will be here on August 9, which is the date that the Barnum & Bailey circus exhibits in this city. He is known that Goliath is not the original giant of fairy tale fame, but he is quite a giant nevertheless.

He is the tallest giraffe in captivity and he is the pride of the Barnum & Bailey menagerie. He measures 18 feet from the tips of his ears to the tips of his toes, and he can pick fruit from the topmost limbs of the average fruit trees without exerting himself in the least.

Goliath was born in far-off Abyssinia, where his ancestors still roam the jungles. He was captured by animal hunters who were members of a special expedition sent out by Barnum & Bailey in 1908. When captured he was only a few months old and his name was not "Goliath" at that time, nor for some years thereafter. He was named Goliath when he was only three years old. Since that time he has attracted a great deal of attention in America, and animal experts claim he is the tallest giraffe in the world.

## TODAY'S DAINTIEST DISH

COOKERY IS BECOME A NOBLE SCIENCE

## Fruit and Vegetable Pickle

By CONSTANCE CLARKE.

IN spite of the good quality of all kinds of manufactured preserves, most housewives cling to the idea that home-made preserves are the best. The following recipe for a delicious fruit and vegetable pickle is easily prepared.

Peel, core and cut-up twelve medium-sized apples. Remove the stones from a pound of dates, and

boil the two in a quart of vinegar until tender. Then add three cups of brown sugar, one-half ounce of ground ginger, two cloves of garlic, six medium-sized tomatoes, one cup of seedless raisins, one teaspoonful of salt and mustard, and one pound of dried apricots. The apricots should be soaked and cut into small pieces before they are added. Put in jars while hot, and cover when cold.

To-morrow—Roast Capon with Cream Gravy.
